STATE BOARD OF HEALTH,

102 CHARLES STREET, BOSTON, July 1, 1870.

DEAR SIR:

We are now in receipt of replies from our medical correspondents in 152 cities and towns of the Commonwealth, to circulars issued in April and May. They include a great deal of valuable information relative to the causes of disease; and a summary of the results will be published in our next annual report.

The whole number of correspondents appointed by the towns was 270. From 118 no replies have yet been received. We are very desirous to make these inquiries as complete as possible, and will esteem it a great favor if you will answer the enclosed questions at your earliest convenience, and send them to the above address.

Very respectfully,

Your obedient Servant,

GEORGE DERBY, M.D.,

Secretary of the State Board of Health.

*Same as preceding
but the questions are
non est*
